

ACCOMODATION FOR 20 CHILDREN

It took place on 4th April the general assembly of all members of Heart of Africa Association to present the 2010 budget. In a venue full of friends and associates, president Fabio Caroli presented a report on the goals achieved last year.

The most anticipated news was the confirmation of the settlement of the first 20 children in the hostel of Machakos in late summer, and the simultaneous start of construction of the canteen and kitchen.

Positive news has also been reported by secretary Pamela Tonelli, who announced the number of children currently in sponsorship: 86! Only few of them still have to found a sponsor, and we hope to provide some as soon as possible.

Good results for Calosci cutting and sewing school, too: once again 10 students are going to be sponsored by Heart of Africa members, and 4 of them have already found support.

Among the goals of 2010 we must remember the recognition of non-profit organization status, which allows all Heart of Africa supporters to deduct their donations, and gives the association itself the opportunity to benefit from 5x1000 funds.

In this regard, we urge all readers who have not decided how to allocate their funds, yet, to mark the appropriate box of the 730 declaration with this code: 97522400585.
